

Dear FCC:

As a resident in Alexandria, KY just outside of Cincinnati, Ohio. I am served in this area by a wonderful Christian radio station K-LOVE 104.3, 96.9 and 102.3.

As a dedicated mother and Christian woman, I am so thankful for this station and the ability to enjoy uplifting music and not have to worry about what kind of language or sexual innuendos might be played. In a world where everything is geared toward sex and violence, it is comforting to know that I have a station I can rely on to give me a break from worrying about the garbage my son would hear.

I have learned that you are considering displacing FM translators with an LPFM broadcaster providing other broadcasting, I feel this would be a terrible mistake and urge to please reconsider. In my church alone I know of hundreds of us who listen to K-Love faithfully and support the many artists who are heard on their stations.

Again, I implore you to please not take good, christian music away from our community who greatly depends on this station to help enforce good, moral values to our children.

Sincerely,

Paula Zechella
